"The Coin Machines Merry-Go-Round"

By Bill Gersh

BEWARE JUVENILE DELINQUENCY

Some months ago we warned about juvenile delinquency. We referred to an article written in one of our leading media wherein the writer, expressing himself regarding the many reasons for juvenile delinquency, claimed one of the biggest to be "gambling". At that time we warned, "be sure to place signs on all your machines that minors are not allowed to play". We also suggested that each subscriber make it a point to carry this program even further by telling friends in this business to also spread the word regarding "no play for minors". Today,, juvenile delinquency has developed into one of the major problems of the nation.

Juvenile delinquency is directly attributable to the war. To the fact that mothers and fathers are at work and therefore are no longer able to carefully supervise the upbringing of their children. Such cities as Philadelphia have already instituted an 11 P.M. curfew for all youth 16 years and under. Camden, N.J., plans a 10 P.M. curfew. Certain counties in Long Island already have a 9:30 P.M. curfew. Other cities are rapidly following this lead.

WHAT DOES THIS MEAN TO COIN MACHINES? Simply, that because the entire coin machines industry is unorganized, has no "Board of Trade" to carefully guide it, it will again be the first to be jumped upon by many a "blue-nose" reformer or election seeking politico and crucified as one of the industries helping to increase juvenile delinquency. You who have been in this industry for any time at all already heard this rallying cry of the "blue-nose", "coin machines help to demoralize the youth of our nation." You will have to somehow escape from the possibility of this horrible stigma being slapped down upon you. The one and only way out is to immediately make known to everyone of your locations that YOU DO NOT WANT MINORS TO PLAY ON YOUR EQUIPMENT, especially if you're operating slots, consoles, 1-Balls, etc. Put up such signs. Make them big and bold.

Regardless of the fact that such cities as New York now have a tremendous increase in juvenile delinquency WITH NO COIN MACHINES IN OPERATION ANYMORE and the same holds true of Newark, N.J., and many, many other cities - the shrewd blue-nose and publicity seeking politico knows that you can't back this statement up with sufficient strength to upset his efforts to damn you. Therefore, watch every single move you make today for this juvenile delinquency problem has already attracted to it the most outstanding men and women of our country. The kind of people who can act and act drastically if necessary. Work with them. We know that you are just as much upset over juvenile delinquency as is any other good citizen in this nation. NOW PROVE IT. And remember, that while proving it, you are also helping to protect yourself and everyone else in this industry. (We would tremendously appreciate further suggestions along the lines which would help every coinman in the country show rhat he does not want minors to even go near his equipment).

RETAILERS IN '43

As our subscribers know we have made it our business to closely watch the nation's retailers for the very simple reason that coinmen are so intimately identified with them. The retailer is the coinman's location. His prosperity is closely linked to that of the coinman. Coin machine men have been in great part responsible for helping to maintain the retailer in business since this war started. Tho this has not been made nationally known (because there is no organization in the coin machines industry to openly publicize such facts) yet there is no doubt that the retailers themselves realize the tremendous importance which the coin operated machine today plays in their business. We have also reported in past issues that many retailers have at last actually got up on their hind legs and "told off" local administrations regarding their need for coin operated machines revenue and have thereby been responsible for the opening of much territory.

Out of Washington now comes the report that about 300,000 retail outlets are expected to close in '43. There is a tendency on the part of the larger retailers to expand their lines. This has already been noted. Cigar stores and other retail outlets, even grocers, have gone in for merchandise entirely foreign to their regular lines. The retail druggist thru his NRDA (National Retail Druggists Assn.) has just complained to all drug and sundry manufacturers to sell the regular drug store first. The retail field is finding the going tougher and tougher.

But, what does this mean to the coin machines field? Simply, that with the retailer becoming ever more dependent upon coin operated equipment for revenue, that the coinman can now dig down to bring about a better working basis for himself that will mean an assurance of continued profits. And once again, here and now, with these facts before you - we urge you to think most seriously of 30% commission to locations to protect yourself from the increased taxation programs and from increased cost of opera-

"The Coin Machines Merry-Go-Round"

tion as well as from a certain loss of locations which will come about when more small retailers (of the 300,000 reported from Washington) will be forced to close their doors this year.

HONORABLE MENTION

This week we have the pleasure of awarding Honorable Mention to three noted coinmen. First to Mike Munves of New York City because Mike went out of his way when a noted arcade man was severely injured in an auto accident to take over the operation of his arcades. (The operator was Leon Minoque of Long Branch, N.J.) Mike kept the business going and profitable while Leon was in the hospital, unselfishly and without any gain to himself even tho his own large distributing business suffered. Because Mike's action (which came to light thru sheer accident a few week's ago when Leon Minoque told us about it) was so unselfish, so without gain, so modest and yet so benefitting we believe he deserves our Honorable Mention award.

And Honorable Mention this week also goes to Bill Rodstein of Morale Builders, Inc., Philadelphia, for the many days and nights he spent working to bring pin games back to Pennsylvania. As those who have worked on this sort of problem know, this is an unusually hard and grueling and thankless task. Bill worked like a beaver. He did so unselfishly while benefitting others in his industry not only in his own state but thruout the country where the good effects of this re-opening spread like wildfire. Therefore, to Bill Rodstein, too, this week, goes our Honorable Mention award.

We are proud to state that Honorable Mention also goes to another very noted Philadelphia coinman this week, Bill Helrigel of Keystone Novelty & Manufacturing Company for the marvelous work he has done for the American Legion in his state. Such fine work, that the Henry H. Houston Post of the American Legion has just awarded him a citation for his efforts. Because of this outstanding work which reflects credit on all the industry - our Honorable Mention award goes to Wm. Helrigel, Jr.

PAT-ON-THE-BACK DEPT.

This past week we were again in receipt of a great many letters and wires of compliment. Among those we have some room to repeat - the wire from: J. R. Pieters of King Pin Games Co., Kalamazoo, Mich., which read, "Your editorials are great". A letter from Arthur Hughes of S. H. Lynch & Co., Dallas, Tex., which stated, "I would like to take this opportunity to say that personally I think The Cash Box presents information in the most compact and comprehensive manner of any trade medium I have ever used. I have found it a service of convenience and assistance that I would not want to do without." And from Nat Rake of Rake Coin Machine Exchange, Philadelphia, one of our new subscribers: "We have been very successful in securing machines thru The Cash Box and find it very important to have on hand in conducting our business as it keeps us up to date on prices and what goes on in the industry." And from Harry Williams of United Manufacturing Company, Chicago, Ill. "I certainly wish you all the luck in the world as I know you are very deserving of it, as your magazine, no doubt, leads the field and will continue to do so."

FOLLOW THE TREND

Washington has already figured a bedrock basis for civilian needs, provided of course, that the war lasts another two or three years. The plans are as follows: A food supply of about 30% less than in '41. A very lean diet. A cut in clothing of about 1/3 of '41. There would be more work clothes and less of all other types with all luxury clothes out. A beverage supply of little less than half of '41. Beer and wine cut about 1/3, distilled spirits practically eliminated and coffee cut a third. A dry goods supply of about ½ of '41. Gasoline and lubricating oil only 40% as large as '41. Newspapers about 40% of '41 and books 30%. Household furniture barely ¼ of '41. Supply of musical instruments, radios, clocks, jewelry, autos, etc. at just about zero.

What does this mean to the coin machines industry? If carefully checked you will note that these items do not affect your major locations. Yes, with distilled spirits out, many taverns, bars, restaurants, etc. will be somewhat affected. But, beer and wine will help these spots to continue. In short, more and more locations will be dependent on coin operated machines revenue. Every cut that Washington plans has so far helped the coin machines industry arrive at a better understanding of its own true importance as a revenue producer for the huge retail backbone of the nation.

"THE TRADE SPEAKS"

We're planning another new page for The Cash Box. It is to be titled "THE TRADE SPEAKS". It is to be your page. The page wherein you do the talking. Wherein you can present your ideas and your plans and your predictions for this industry. We are preparing this page entirely for you - written by you - edited by you and actually run by you. (We'll pay the freight). Therefore, if you feel you have something to say to the trade that will help all concerned, write us all about it and send along a picture of yourself. Each week another member of the trade will appear on this page to talk about his division of the industry, or talk about the industry generally, or talk about anything he feels should be talked about at this time. Let's hear from you. Make yourself heard on "THE TRADE SPEAKS".

STOCK CONDITION: We buy tubes from over 200 sources. Even so, at times it is necessary to ration a few types and at times our stock will temporarily be exhausted on two or three types.

BACK ORDERS: We don't back order - we cancel. A postcard to you later will advise when we can fill if you re-order promptly.

METAL TUBES: Practically none reach us. We substitute glass for the metals you order. We list the metals to avoid price confusion on the few we do sell.
